

CAMBRIDGE EDUCATION & TRAINING
ENGLISH LANGUAGE SCHOOL

About Us

CAMBRIDGE EDUCATION & TRAINING ENGLISH LANGUAGE SCHOOL

CET is a British owned and managed English language training organization with schools in Nizhnevartovsk and Tyumen, Russia. CET was established in Moscow in 1996 by Cambridge Education & Training UK Ltd of Cambridge, UK. The company also maintains a representative office in Moscow.

CET is conscious that students invest both valuable time and money into their education, and we have always endeavoured to provide results to match this investment. As such, our philosophy has always been to put quality first and to maintain a consistently high standard of teaching.

Our atmosphere is highly professional, but relaxed. We are concerned with specific requirements and problems of individual students and our administrative staff and teachers are always willing to discuss and resolve individual problems. School courses are part of a progressive programme and each course is followed by an internal test to measure student progress. Reports to parents are prepared for all students on Children's and Young Learner courses

and where necessary parents are invited to attend a meeting with the teacher or the Director of Studies. The school will not tolerate, and as a result has never suffered from, disciplinary problems in its Young Learner classes.

Examination courses (KET, PET, FCE, CAE, CPE, BEC and IELTS) are available to our students. We can arrange for these exams to be taken either in Russia or in the UK, through our partner, Cambridge Academy of English who also provide residential courses for any of our students who would like to study in the UK during the summer months or at other times.

Our reputation is important to us. It has been built on the satisfaction and success of our students. We do not intend for that to change.

Thank you for your interest in us. We hope to hear from you, or see you, soon.

T H Davies
Director

ESOL Examinations

Every year more than half a million people take University of Cambridge examinations in English for Speakers of Other Languages (ESOL). They take them in order to improve their employment prospects, to seek further education, to prepare themselves to travel or live abroad, or because they want an internationally recognized certificate showing the level they have attained in the language.

Adults

Our general English programme covers 12 levels from Starter (no previous knowledge of English) up to Advanced (fluency) level. All our levels focus on practical communication in English and include all the core elements of language learning: reading, writing, speaking, listening, grammar and vocabulary.

Young Learners

We run courses at CET for Young Learners aged 12-17, based on a similar system to that for adults, consisting of 10 learning levels, also mapped to the Common European Framework (CEFR) and incorporating the major Cambridge examinations (KET, PET, FCE and CAE).

Children

It is ever more beneficial, in today's world, for young children to begin learning English from as early an age as possible. Young children have an innate linguistic capacity which means that the English they learn at this early stage in their development is likely to stay with them for life.

For further details on all our courses please email:
info@cetschool.com or visit: www.cetschool.com

Studying English Abroad

Studying English abroad can be a transformative experience for those seeking to boost their language level or communicative confidence. At our partner school in the UK, Cambridge Academy of English, you are immersed in English all day in an international environment where people of all nationalities mingle and learn their common second language together.

CET can help organise your English language learning experience abroad in the UK through our partner school. Summer is the time

of highest demand and booking your place well in advance is recommended during this busy period, but studying in the UK can be arranged through CET at just about any time of the year, to suit yourself, your family or your schedule.

Both adults and young learners can book English study courses in the UK through CET: we assist in processing the necessary visa applications and paperwork, and take care of transferring all necessary fees and payments.
